**Subject:** Superfund RTOC Update - Wilcox

Hi Katrina.

Below is the information that is in the last Superfund Update for the RTOC. Do you have any updates, changes, deletions?

**Wilcox Oil Company:** Katrina Higgins-Coltrain (Remedial Project Manager) and Todd Downham (Oklahoma Department of Environmental Quality Project Manager) continue to coordinate with the tribal groups interested in the Wilcox Site. Update meetings and discussion related to the Remedial Investigation/Feasibility Study process, current status and progress, and schedule of future activities were held in March and April 2015. A meeting was held August 26, 2015, with the interested parties which included ITEC, Sac and Fox Nation, Muscogee (Creek) Nation, Cherokee Nation, BIA, and IHS. Currently, we are working with the ITEC and Muscogee (Creek) Nation cultural and historical preservation departments to investigate and identify areas of cultural and historical significance that could be impacted by site related activities. *Katrina Higgins-Coltrain 214-665-8143*

Let me know. Thanks.

*LaDonna Turner*

**Wilcox Oil Company:** Katrina Higgins-Coltrain (Remedial Project Manager) and Todd Downham (Oklahoma Department of Environmental Quality Project Manager) continue to coordinate with the tribal groups interested in the Wilcox Site. The ITEC, Sac and Fox Nation, Muscogee (Creek) Nation, Cherokee Nation, BIA, and IHS, are interested in the site and participate in the site meetings and visits. Update meetings and discussion related to the Remedial Investigation/Feasibility Study process, current status and progress, and schedule of future activities were held in April and March 2015. A meeting was held August 26, 2015, to discuss and identify areas of cultural and historical significance that could be impacted by site related activities. On September 24, 2015, a follow-up site visit with the Muscogee (Creek) Nation cultural and historical preservation departments and Sac and Fox Nation was conducted. In addition, interested persons visited the site during field work conducted December 2015. Currently EPA is working to review field data from September and December 2015 and develop site plans that are tentatively scheduled to be shared with the team in April 2016. Also, the April/May timeframe is tentative for the next open house with the community. Katrina Higgins-Coltrain 214-665-8143
